About us

"Trust is the key to Success & Leadership"

Myra Foils is the cradle of the aluminium industry of India. Within less than a decade of its inception, Myra Foils has grown up to one of the largest modernised aluminium foil manufacturing base in Asia.

Being leading manufacturer and trader of Aluminium foil, we have an advanced facility for production and packing of foils, meeting customer's specifications for the household as well as industrial consumption. A wide range of Aluminium products are supplied by Myra Foils for Packaging, Consumption, Pharmaceuticals and Institutions.

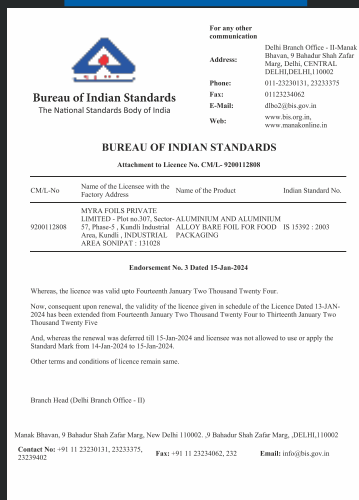

We are well recognised name in the food packaging Industry for providing the best quality Household Aluminium foil, Aluminium Containers, Cling Film and Aluminium Disposables in various sizes and thicknesses according to the requirements of the customers.

Last but not the least, the combination of experienced professionals supported by a dedicated hard working Sales/Marketing and strong supply chain guarantee customer satisfaction and timely deliveries.

Quality, Nutrition, Hygiene, Freshness and Service are the corner stones of this foil that set it apart, hence justifying the tag line ***Eat Fresh, Eat Healthy***

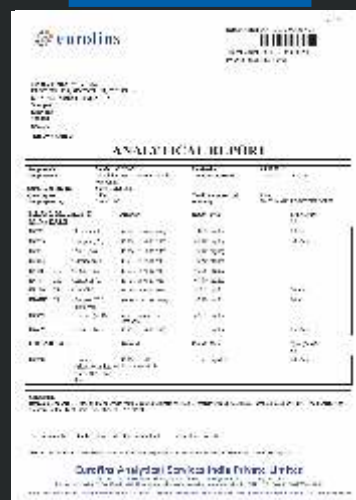

Bureau of Indian Standards Certificate

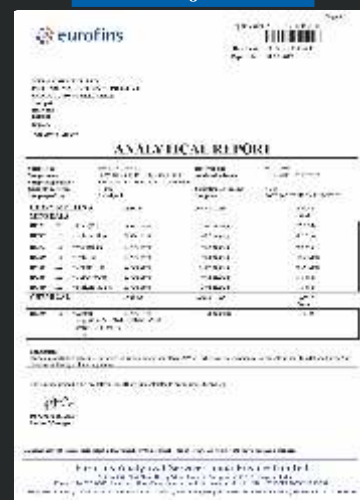

ISO 9001:2015

Food Grade Aluminium Foil Certificate

Food Grade Cling Film Certificate

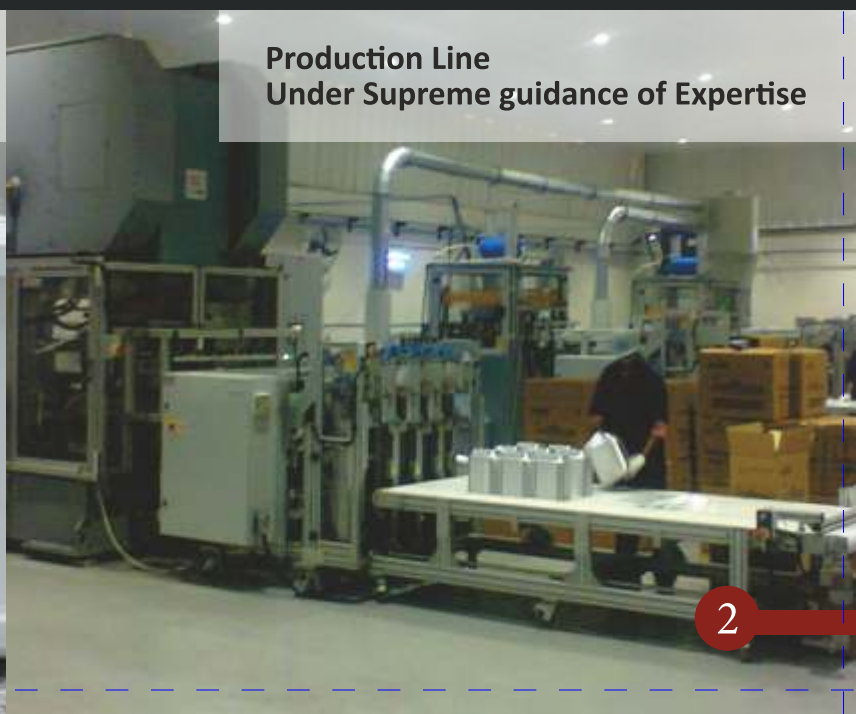

Myra Foils is dedicated to implementing and managing its operations as per the ISO quality standards that focus on continuous improvement and checks over the processes. With due regards to Government guidelines and commitment towards society, Myra Foils makes sincere efforts to ensure energy conservation, pollution free manufacturing, offering bio-degradable products and undertakes waste management system. Myra Foils meets all the statutory and industrial requirements necessary to ensure environment protection, quality and hygiene and food safety standards.

Myra Foils was among the top companies in India to acquire ISI License for our Aluminium Foil Products as soon as the ISI License (IS:15392) became mandatory. We were already following the quality system well before its implementation by the BIS (Bureau of Indian Standards). We have state of the art Quality Control Lab with specialized equipment like Tensile Strength checking machine, Pin-Hole Count Apparatus, Special Angle protector apparatus, and digital measuring instruments, duly calibrated with NABL certified labs, to give 100% accurate & safe products to our customers.
